"SOCIABILITY" RUN PROVING A SUCCESS

MARYVILLE BOOSTERS MEETI' FRIENDS IN SURROUNDING TOWNS

87 PEOPLE ON THE TRIP

Tourists Take Dinner at Burlington Junction This Noon; Visit East Half of County Tomorrow.

Twenty-five automobiles, carrying 87 citizens of Maryville and vicinity left the court house square at 9 o'clock this morning for the first day lap of the big sociability tour which is being put on today and tomorrow under the auspices of the Maryville Chamber of Commerce.

Long before the time of departure, the cars began to congregate about the square to receive their number and the "early comers" drew the pick of position at the front of the procession. The "Nodaway County Water Wagon" headed the line and the big tank carrying the quantity of lemonade which furnished one of the features of the tour for the thirsty persons along the route, was driven by Charles Hellmers. Edward Weisberger representative of the Kansas City Post, was one of the passengers in the pro[illegible]or.

The first stop made by the [illegible] was at Wilcox. From that place the procession moved to Clearmont, and thence to Elmo and Burlington Junction. At the latter place the visiting "boosters" took dinner. This afternoon the procession was scheduled to make Quitman, the Boy Scout Camp near Skidmore, Skidmore, Maitland, Graham, and then back to Maryville where the preparations will be made for the visit to the eastern half of the county tomorrow.

At the stops made today the Maryville band gave selections while from the big tank cupful after cupful of delicious lemonade was drawn and passed to those who wished it. The plan of having four minute talks made at each stop was abandoned, and the Maryville people devoted their entire time to personal talk with the people and a general old fashioned visit. The idea of the trip is to eliminate all undue formality and form, and boosters greeted the townspeople with the spirit of good fellowship and friendliness which carried more weight than any number of long winded addresses.

The tour this morning was free from many of the disagreeable features which often accompany such a trip. Only one puncture was received on the morning run, and this was fixed within a few minutes by the "efficiency car" crew. All the towns were reached on schedule time and with the weather just cool enough to make the trip enjoyable, the affair is being voted a great success.

Although the crowds which greeted the visitors at the various towns this morning were comparatively small, due to the busy season of the farmers, they made up for their lack of number in enthusiasm, and the tourists were given a royal reception at each stop.

One of the features of the tour was the presence of Clun Price with the Belgian police dog which he purchased in Paris. The animal seemed to enjoy the trip and was probably second only to the "water wagon" in interest.

Tomorrow the "sociability run" will include Pickering, Hopkins, Parnell, Ravenwood, Clyde, Conception Junction Guilford, Barnard and Arkoe. It is planned to take dinner at Conception.

Visitors Invited to Come to Camp Sunday; Contest to Begin Promptly at 2 o'Clock.

Camp Arnett, July 23.—With everything settled down to the regular schedule, and with [illegible]w completely adjusted to their new canvas homes, things are going along in true Sunday scout fashion at the [illegible]re. [illegible] Piano [illegible]e. [illegible]rs. Pe[illegible]ey, Vocal [illegible]ttenGrowacy of Con[illegible]nic[illegible]est is [illegible]nd Miss Maye [illegible]work. The [illegible] here and [illegible]d today when the standard co[illegible]nt arrives. The various patrols will compete in a final drill contest next Sunday afternoon beginning promptly at 2 o'clock, and a classy exhibition is promised. Commandant Peery announces that visitors will be welcome to the camp Sunday and that the contests will be carried on strictly according to the time schedule. The patrol drill begins at 2 o'clock sharp, fire building at 3 o'clock swimming races at 4 o'clock.

The fire building is creating a great deal of interest among the scouts, and about twenty boys are preparing their material and practicing under the direction of Assistant Scoutmaster Boatman. Primitive ways of making fire without the use of matches form one of the most interesting phases of this work.

Scoutmaster Green delivered an interesting "First Aid" lecture yesterday morning before an assembly of the entire camp.

RACE WAR DYING OUT IN WASHINGTON TODAY

Street Battles Show Decrease Last Night; One Killed and One Injured by Negro Who Escapes.

Washington, July 23—That the flame of race hatred in the national capitol has about flickered out, was the belief today by both the local and federal authorities. There has been only desultory rioting last night, in which one man has been killed and one seriously injured. Both were shot by the same negro, who is still at large.

"TRIPLE ALLIANCE" TO PUT STRIKE QUESTION TO WORKERS

Believed Body Is Composed of Leaders of Labor Unions; General Strike the Issue.

London, July 23.—By a vote of two hundred and seventeen to eleven, the "triple alliance" this afternoon decided to put the question of a general strike of miners, railway men and transportation workers up to a ballot of the working men. It is believed that the "triple alliance" is composed of officials of the three unions.

TICKET SALE GOOD FOR CHAUTAUQUA

CHURCH COMMITTEES TAKE UP SELLING CAMPAIGN

THORO CANVAS OF CITY

Committees Getting a "Line-up" of Sale Prospects for Next Year.

The work of selling the tickets for the coming chautauqua is progressing rapidly, according to the committee in charge, and favorable indications are given for a record attendance at the entertainment this year.

In addition to the sale of the tickets in the various business houses of the city, a committee from each of the churches is covering the city in the interest of the sale. Committees from the Presbyterian church composed of Fred French, Dick Hotchkin, Prof. H. P. Swinehart, and Fred Kutrz, and from the South Methodist church, composed of Henry Thorpe, I. B. Williams and R. C. Seals, are making a house to house canvass of the Fourth ward in the interest of the sale. In the First ward the Christian church committee, R. Frank Wallace, Ed Hamlin and Henry Westfall, are conducting a similar campaign. In the second ward the work is being carried on by Ed Brewer, G. B. Holmes and J. B. Lowery, a committee from the Baptist church, and in the Third ward the ticket selling campaign is being staged by the First Methodist church committee, composed of L. B. Tracy, Ed Howland and Henry Wright.

In addition to selling the tickets, the members of the various church committees are at the same time securing the names of all persons who will promise to buy a ticket for a chautauqua next year. The sponsors of the entertainment in this city desire to know the general desire of the citizens for a chautauqua and are taking this means of getting the popular opinion before the contract is signed up.

MISUNDERSTANDING OF PROVISIONS OF INCOME TAX

Many County Collectors Collecting Income Taxes on Old Basis of One-Half of One Per Cent.

Jefferson City, July 23.—Inquiries to the attorney general from several sections of the state, disclose that there is a general misunderstanding of the provisions of the income tax law passed by the general assembly of 1917.

Many county collectors are collecting the income taxes for this year on the old basis of one-half of 1 per cent, and are deducting property taxes paid to the state last year.

Attorney General McAllister says that income taxes for this year will not be due until October 1. The law provides that the assessor shall complete the assessment of income—that is, ascertain the amount of the income subject to tax—on or before the first of March and shall certify the results to the county clerk, who shall compute the amount on the tax books, "and it shall be collected and paid as personal property taxes are now collected and paid."

Income taxes assessed this year on income for the calendar year 1918 are to be figured on the basis of the new rate, 1½ per cent, and there will be no deduction for property taxes paid to the state. Income taxes are not payable until personal property taxes are payable.

DISASTROUS FIRE PREVENTED BY QUICK WORK OF DEP'T

Blaze at the Mrs. Quinland Residence on W. Eleventh Street Extinguished After $300 Damage.

What might have proven a disastrous fire, coming at the time of night it did, was quickly extinguished last night at the residence of Mrs. Quinland, 209 W. Eleventh street, by the fire department.

The fire department received the call at 11:30 o'clock and, after a record run, were throwing water on the blaze at 11:40 o'clock. The fire started in a woodhouse, located near the house. When the blaze was first noticed the woodshed was in flames, lighting up the sky for several blocks around. Before aid was summoned the roof of the house and a shed across the alley had caught fire. Ten minutes later the fireman were at the scene of the trouble. The flames on the roof of the house were put out and the blaze in the two sheds was under control. The damage, amounting to $300, was not covered by insurance.

MISSOURI "DRYS" WILL NOT DISBAND

REV. W. C. SHUPP, ANTI-SALOON LEADER, SAYS NO INTENTION TO QUIT

A FACTOR IN POLITICS

Decline to Follow Suggestion of Harry B. Hawes to Disband; To Prosecute Lawlessness.

St. Louis, July 23.—The Missouri Anti-Saloon League will not adopt the advice of Harry B. Hawes, former Missouri Democratic leader, and disband, according to a statement issued by the Rev. W. C. Shupp, secretary of the league. The statement was in reply to an article by Hawes published in Sunday papers here in which Hawes says Shupp and other leaders in Missouri anti-saloon movement had dictated the nomination of governors, members of the state legislature and congressmen from Missouri.

"Has the Anti-Saloon League finished its work of closing the saloons, and is it, therefore going to quit" was Hawes' query in his article which was addressed to the Missouri Democracy.

Shupp made the following reply:

"As to the statment of Mr. Hawes that the anti-saloon league should now disband, since the fight is over against liquor, we have no intention, at least at this time, of following his advice.

"In the first place, if the fight is really over it ought to make very little difference to either Mr. Hawes or any other brewery attorney whether we attack chewing gum or face powder or patent corn cures. Circumstances in Congress and in political circles in Missouri, together with the open defiance of the prohibitory law by the liquor dealers of St. Louis and other cities of Missouri, indicate the fight is not over.

"We are obtaining evidence against lawless St. Louis and Kansas City liquor dealers and propose that they shall answer to the Department of Justice. We also expect to use our entire machinery in the choice of the cleanest, strongest men for political office in the coming election.

"We are perfectly willing to acknowledge the correctness of Mr. Hawes' statement when he charges us with having obtained the decisive defeat of home rule in the matter of the police force of St. Louis. If the police have not aided in the matter of honest and clean elections in St. Louis when their positions did not depend on the local vote of the corrupt wards of this city it would have been infinitely worse if the appointments depended entirely upon St. Louis liquor politics.

"In Hawes' summary of the things necessary for the success of the party, the big thing seems to be to get rid of the anti-saloon league. We are quite certain that Hawes could get quite a group of old-time politicians in the other political party to join him in that demand. On the other hand, the great majority of politicians not only believe, but openly say they are glad the liquor slavery under which they were compelled to operate for years is forever broken.

"So I am frank to say that we find it entirely impossible to acceed to the wishes of Mr. Hawes to disband our

WHEAT MAKES 36.6 AND OATS 45.25

HAVE HIGH YIELD ON PLOTS AT COLLEGE EXPERIMENT FIELDS

SHOW BEST TREATMENTS

Plot Treated With Legume Gives Best Yield for Wheat and Rock Phosphate Gives Best Oats Yield.

According to Prof. F. L. Duley, instructor in the Department of Soils at the Agriculture School, University of Missouri, the highest yielding plot of wheat at the agricultural experiment field ran 36.6 bushels to the acre. In all there were ten plots of wheat each of which had received a special soil treatment. The plot which made the 36.6 bushels to the acre had been treated with legume. The lowest treated with legume contrary to usual results. The lowest yielding wheat plot which figured 26 bushels an acre, whatever. This is unusual.

Among the ten plots of oats, the highest yielding plot figured 45.25 bushels to the acre. This plot had been treated by rock phosphate. The smallest yield was made by a plot which had received no treatment, the yield for this plot being 31 bushels to the acre. The plot which ran second in yield, making 42 bushels to the acre, had been treated by bone meal and potash.

The results from the twenty plots of specially planted and treated plots of wheat and oats are, on the whole, very interesting and enlightening. As stated yesterday the experiment station here has the best prospects of any experiment station in the state this year and the results which are tabulated at the local experiment station will be of prime importance to the agricultural experts of the School of Agriculture at the state university.

The tabulated results for each plot of both wheat and oats, indicating the treatment which each plot received and the yield of each plot follows: Wheat—Plot No. 21, treated with legume, 36.6 bushels. Plot No. 22, treated with bone meal, 34.2 bushels; Plot 23, no treatment, 36 bushels; Plot No. 24, treated with bone meal and potash, 35.2 bushels; Plot No. 25, treated with bone meal, potash and lime, 34.4 bushels; Plot No. 26, treated with rock phosphate, 35.8 bushels; Plot No. 27, no treatment, 35.6 bushels; Plot No. 28, treated with rock phosphate, 34 bushels; Plot No. 29, treated with manure, 26 bushels, and Plot No. 30, treated with manure and rock phosphate, 29 bushels.

Oats.—Plot No. 11, treated with legume, 38.7 bushels; Plot No. 12, treated with bone meal, 37.25 bushels; Plot No. 13, no treatment, 38.2 bushels; Plot No. 14, treated with bone meal and potash, 42 bushels; Plot No. 15, treated with bone meal, potash, and lime, 34 bushels; Plot No. 16, treated with rock phosphate, 45.25 bushels; Plot No. 17, no treatment, 31 bushels; Plot No. 18, treated with rock prosphate, 36.5 bushels; Plot No. 19, treated with manure, 39.75 bushels, and Plot No. 20, treated with manure and rock phosphate, 41 bushels.

LEAVENWORTH PRISONERS STRIKE DEMAND FREEDOM

Situation Tied up Until Orders Are Received From Chicago; Worst Strike in Prison's History.

Leavenworth, July 23.—Conditions at the United States Disciplinary barracks, where yesterday the prisoners went out on a strike for general amnesty that the prison gates be opened and they be turned out, was practically unchanged today, and the Commandant said that things were practically at a stand-still. Nothing can be done until word is received from the Commander of the Central Department at Chicago. This is the worst strike in the prison's history. The prisoners declare that they will not obey the rules and return to work until they are promised that they will be set free.

CONGRESS IGNORES MEXICAN TROUBLE

REFUSES TO TAKE ACTION TO END OUTRAGES TO AMERICANS

SENTIMENT FOR ACTION

Many Members Demand Use of Armed Forces of U. S. to Bring About a "Clean-up.

Washington, July 23.—Congress will take no early action in regard to the Mexican situation. While the sentiment seemed to be crystalizing for decisive measures to put an end to the outrages against the Americans in Mexico, and many members are demanding the use of armed forces of the United States in a general clean-up, leaders in Congress it was learned today, have decided to follow for a while longer the lead of the State department.

EXCITING RUNAWAY THRU STREETS AT NOON TODAY

Team Belonging to Oswald Gray Take Fright at Auto and Make Wild Dash.

A rather sensational runaway occurred at the noon hour today when a team hitched to a road wagon, left standing in front of Gray's sale pavilion, became frightened at Jake Melvin's car and the horses started on a wild run. The team turned the corner of Second and Buchanan streets, swerved across the sidewalk, knocked down a cement hitching post, and ran down the sidewalk. On reaching a place in front of St. Patrick's church one horse slipped and fell, throwing the other horse down and stopping the wild race.

F. L. Tracy and Dr. Jesse Miller were going down the sidewalk in front of the South Methodist Flats and barely got out of the way of the madly running team before they were seriously injured.

The team belonged to Oswald Gray and had been driven to town by his son. The wagon was badly damaged and the harness on the horses was torn to pieces. Henry Thorpe caught the team after they had fallen and held them until the Gray boy came up to take them.

MRS. LOUIS GRAM DIES OF TETANUS AT HOME.

Survived by Husband and Two Children—Funeral Friday Morning From St. Mary's Church

Mrs. Louis Gram, who has been ill for two weeks of complications resulting from stepping on a nail, died about 4 o'clock this morning at the Gram home, 1211 East 1st street. Mrs. Gram who was 62 years old, was born in Germany and when a young girl came to this country. She and Mr. Gram were married in 1889. Mr. Gram and two children survive, a daughter, Miss Mary Gram, and a son, Corporal Louis Gram. The latter arrived home yesterday morning on a ten days' furlough given him on account of his mother's illness.

Funeral services will be held at 9 o'clock Friday morning at St. Mary's church, conducted by the Rev. Father Odilo. Burial will be in St. Mary's cemetery.

MEMBER MISSOURI PRESS ASSOCIATION

TO BEGIN MEMORIAL CAMPAIGN

Alumni of University of Missouri Hope To Erect Tower on Campus.

Columbia, July 23.—A campaign to raise funds for the building of a tower on the campus of the University of Missouri in memory of those M. U. men who served in the war and who gave their lives in the struggle will be started soon by the Alumni Association of the University. The tower as now planned will cost approximately $100,000 and will be erected on the University's White Campus.

Practically every university and college in the country is conducting a similar campaign. At several of the large universities the money already has been raised for a memorial on the campus to the alumni and students of the university who served in the world war.

Chairmen will be appointed in each county of the State by the Alumni Association of the University of Missouri upon whom will rest the responsibility of seeing that every former student of the University in that county is given an opportunity to contribute to the student memorial fund.

In the larger cities of Missouri and other states, special chairmen will be appointed to conduct the campaign in the city. Those M. U. students in foreign lands also will be invited to contribute to the fund for the erection of the Memorial Tower. It is expected the campaign will extend through the fall months.

Prominent members of the Missouri Alumni Association in St. Louis and Kansas City already have been consulted in regard to the proposed student memorial. From the interest shown in these two cities and in other parts of the State and the United States, it is believed all Missouri alumni and former students will want to have a part in erecting a tower to the University's dead.

GOVERNMENT FOSTERS OVERSEAS COMMERCE

New Foreign Field Agents will Canvas Trade Opportunities for U. S.

Washington, July 23.—An estimate of foreign trade for the year ended June 30, 1919, puts the excess of this country's exports over its imports at $3,704,000,000, nearly $100,000,000 above the figures for the same period in 1918. Since the armistice interest in foreign trades has greatly increased, according to officials of the Bureau of Foreign and Domestic Commerce and opportunities for our goods abroad have doubled.

To keep pace with this development and to show the way for American exporters, the Commerce Department, through its Foreign Commerce Bureau, will send out this year twelve additional field trade commissioners. This will make a total of 49 American field agents in foreign market territories.

As an index of the increased interest in export opportunities Congress made an appropriation of $100,000,000 this year for the bureau's work. While this sum was almost double the appropriation in any past year it was but two-thirds of the amount asked of Congress.

There are at present 29,000 exporters receiving the daily reports and special bulletins of the Commerce Department, representing nearly as many firms actively interested in the more than $6,000,000,000 worth of goods now being annually exported. The value of exports jumped to this figure in 1919, and it is estimated the total will be several hundred million dollars large in 1920. Prior to the war the value of our exports averaged only about $2,500,000,000.

To keep up with the opportunities in markets overseas the Department has been co-operating in its field work with the Foreign Trade Adviser's office and the Consular Service of the State Department. In addition to the various consular agents and foreign trade agents the Bureau of Foreign and Domestic Commerce has been developing the trade commissioner agencies throughout the world during the last couple of years. There are now twelve commercial attaches at the leading American ministries and embassies. There are twenty-five trade commissioners now active in foreign fields, keeping American exporters informed of their opportunities, and in a few months twelve resident commissioners will be sent to the various fields where there is now no embassy representation.

Manufacture for foreign trade export will absorb much labor during our reconstruction period. The export industry has been called the labor balance wheel because it takes up the slack in the labor market. Secretary of Commerce Redfield is establishing co-operation between the Shipping Board and the Commerce Department so that the reports of foreign trade and markets by super-cargoes on our merchant vessels will be added to the information that will enable our exporters operate their factories at full speed and keep America actively among the world's leading exporters.

MAY WEAR UNIFORMS ON SPECIAL CIVIC OCCASIONS

Washington, D. C.—The War Department has issued a circular advising honorably discharged soldiers that they are entitled to wear their uniforms on special occasions, such as parades, patriotic celebrations, etc. The circular was issued because of numerous requests from discharged soldiers for such information. An act passed by the last Congress allowed honorably discharged men in the military service, including the navy and Marine Corps, to retain one complete uniform and authorized it to be worn after the men had returned to private life.

GIRLS' CLOTHES SHOCKING, SAYS THIS "MISS" OF 80

North Brookfield, Mass., July 23.—Modern young women's gowns are the height of indecency and are worn only for the purpose of displaying shapely limbs, according to Miss Hazel Mason.

"Morality never enters the heads of these light-headed girls," said Miss Mason, who admits to being past eighty and declares that the older she grows the more shocking the sights she sees. She also took issue with the statement that country people are morally more pure than those of the cities.

MANY REASONS WHY NATION DESIRES HOUSEHOLD THRIFT

Household thrift helped win the war. It will fortify the peace, making America powerful, its people prosperous, and its homes happy.

Thrift is steady earning, wise spending, sane saving, careful investing, and the avoidance of all waste.

What the members of one family produce in outside industry and in the home adds to the national product or "wealth heap" of food, clothing, and all desirable goods; this national wealth heap is divided among us all, and out of it every family, each one of us, gets his living.

What one home wastes is taken away from the Nation's wealth, and makes all homes that much poorer.

The war taught us to practice thrift together in food, in clothing, and in all goods, in order to serve America and save the world. Our country asks continued thrift in the home as a guarantee that we shall remain a prosperous, progressive, independent and dependable Nation.

By thrift every household can take its part gladly in every government loan; by investing in government securities it can safeguard its future, and increase its income so as to fulfill the American ideal of personal independence and constant progress toward better living.

Thrift is a permanent service which the household can render to the Nation.

If your appetite is poor and your stomach and bowels are out of order the remedy you need is Prickly Ash Bitters. It cleanses the system of bilious impurities, sharpness the appetite and makes a man feel fine. Price $1.25 per bottle.—Maryville Drug Co., Special Agents.—Adv.

Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you.

The first part of the program consisted of three selections played by the Dietz sisters, Esther, Edna, Margaret and Grace, the selections being "Ultimatum," "Pilgrims Chorus" and "Dream Faces". The second part of the program consisted of two vocal solos by Prof. W. J. Osborn, accompanied by Mrs. W. J. Osburn. The two selections were "last Night" and "The Turkey Song." The third part of the program consisted of Hawaiian music by Esther Dietz with a Hawaiian guitar accompaniment by Edna Dietz, the selections being "Kentuck Dreams" and "Mammy's Lullaby". The concluding number of the program was made up of selections by the quartet, entitled "Selections from William Tell" and "The Three Nymphs."

HOG PRICE RECORDS BROKEN EVERY DAY

Top Value of $23 Reached On Porkers Brought In Trucks.

New record prices are being established on hogs almost daily at the stockyards. On yesterday's market the top rose to $23 a hundred, which beat Monday's record of $22.65 by a margin of 35 cents. Much speculation as to just how high prices will soar before there is a permanent decline in the market is being indulged in by traders at the yards and country shippers. Some wagers have been laid that the top will climb to $25 before the end of September. Many stockmen, however, venture the prediction that the crest of the boom in hog values has about been reached. No one connected with the trade, though, believes there is any chance fo rany sharp decline in prices until the last spring pig crop matures and supplies at market centers become more plentiful.

The hogs that sold at $23 were marketed by D. E. Saeger, of Wathena, Kas., who brought the porkers to the yards in a motor truck.—St. Joseph Gazette.

LAND OPENED TO ENTRY.

Washington, July 23.—Twenty-four thousand acres of land in the Tahoe National Forest in California and Nevada, and in La Sal National Forest, Utah, have been restored to the public domain and made subject to entry under the homestead laws on and after August 21, 1919, and to settlement and other disposition on and after August 28, 1919. Sixteen thousand acres of this land in California and 1,000 acres in Nevada are said to have limited value for grazing. The land in Utah—about 7,000 acres—is in part suitable for dry farming and partly useful for grazing.

DEAF MUTE, STRUCK BY TRAIN, REGAINS VOICE

New York, July 23.—Employees of the Pennsylvania Coal Company and of the Pennsylvania Railroad Company who were in proximity to the place where Mary Alexandavicz, of Port Griffith, was struck by a train recently near the Hoyt shaft at Port Blanchard, say that though the young woman was a deaf mute she screamed loud enough to be heard after the coal cars had passed over her body.

Men on top of a culm pile nearby, who could not see the train as it passed below say that they heard a peculiar noise as from a human being and hurried to investigate. At the foot of the dump and on the off side of the cars they found the young woman. They say that she reached her right arm over her left shoulder and found that her arm had been amputated. She was still conscious and screamed pitifully again. The men could not understand her, but believe that the shock of the accident gave her power to make herself heard. They tell of her gamely struggling to get up, though her arm and leg were cut off and her head badly bruised and cut. Her body was partly mangled also and she presented a terrible sight as the workmen came upon her torn body. She had been walking along the tracks and did not see the train. A brakeman threw a club at her as the cars rushed toward her, but her attention could not be attracted in time. The first car hit her and then the horrible shriek of pain was heard by men high up over the culm pile. The young woman died at the Pittston hospital. Deaf and mute, with a leg and arm off and her body badly cut, she wanted to live, but death later came.

Cata[illegible] Real Enemy and Requires Vigorous Treatment

When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.

Catarrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

Throw these makeshift remedies to the winds, and get on the right treatment. Get a bottle of S. S. S. today, and commence a treatment that has been praised by sufferers for nearly half a century.

S. S. S. gets right at the source of Catarrh, and forces from the blood the ge[illegible]s which cause the disease. For special medical advice free regarding your own case, address Medical Director, 51 Swift Laboratory, Atlanta, Ga.

SHE DIDN'T ENJOY A MEAL IN SIX YEARS

Miss Vaughn Gains Fourteen Pounds After Tanlac Relieved Trouble.

"To show you what I think Tanlac has been worth to me, I wouldn't be back in the fix I was before taking it for all the money in Galesburg," said Miss Mary Vaughn, residing at 93 Summer street, Galesburg, Ill., in a conversation with a Tanlac representative, recently.

"At the time I got Tanlac," she continued, "my stomach had been in such a bad condition for six years that I was compelled to live on the very lightest of foods and even when I would just suffer agony, there was a constant burning sensation and a heavy feeling like lead in the pit of my stomach. I suffered so much after eating that I actually dreaded for meal time to come, and I never enjoyed a meal in all those six years. I was also troubled a great deal with sick headaches. My head felt like it would burst at times and I actually thought I would go blind, the pain was so great. Nobody will ever know just how badly I did suffer, for I simply can't describe it. I was the most nervous person, it seems to me, in the world. Why, I couldn't dress myself and get ready to go any place without getting so weak and nervous that I could hardly stand it. Really life was very little pleasure to me. I felt so badly all the time.

"I had tried so many medicines without relief that I had about concluded that there was no help for me, but at last I have gotten rid of it all by Taking Tanlac. Why, Tanlac is no more like any other medicine I have taken than day is like night. I commenced to eat hearty and sleep better in just a few days after I began taking it. My appetite is so good now that I just cannot eat enough to satisfy me and I never have any more trouble with my stomach no matter what I eat. My headaches have broken up entirely, my nerves are calm and steady, and if anyone could feel like a new person I do. My friends all tell me they have never seen me looking so well. Anyway, I have gained fourteen pounds in weight by using Tanlac and never know what is it to have an ache or a pain, so I have the best of reasons for praising Tanlac and am glad to make this statement to be used in letting others know about it."

Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. Smith, and in Hopkins by Hopkins Drug Co."

See Mabel Normand in "When Doctors Disagree" at the Empire tonight. 23.

Mrs. George A. Pickens has as her guests today Mrs. E. R. Brown of Hopkins and Mrs. Grant McMillen of Pickering.

Mrs. Mary Wray, Mrs. Fred Monroe and little daughter, Helen Joy, and Mrs. Frank Mahan of Hopkins, spent Tuesday in Maryville.

KAISER "BILL" MUST MUST REMAIN IN HOLLAND

Dutch Foreign Office Refuses to Grant Permission for Former Emperor to Change Residence.

The Hague, July 23.—The Dutch Foreign office has refused to grant permission to the ex-Kaiser to move to Amerongen, although he himself desired to move, Count Bentinck desired to get rid of him, and the former German Empress' friends have found a suitable residence elsewhere. The ex-Kaiser is legally free to leave Holland, it is said here, but a significant statement obtained from the foreign office today, declined to say what would happen if he tried to leave. All the ex-Kaiser's mail is censored.

HONOR BUTTONS READY FOR ALL IN WORLD WAR

Washington, July 23.—The victory button commemorating service in the world war is now being distributed by the War Department to every man enlisted in the American force since April 6, 1917. Two hundred thousand silver buttons have been manufactured for distribution to men wounded in the war. Approximately 500,000 bronze buttons for men who served abroad but who were not wounded, have already been manufactured. Manufacture of the bronze buttons will be continued at the rate of 20,000 a week until all the demands are supplied.

These buttons can be obtained at the various army posts, recruiting stations and zone supply offices upon presentation of honorable discharge.

The War Department is now negotiating contracts for the victory ribbon and stars and bars to be issued to those who served in world-war engagements and those who received citations for valor. Approximately 507,000 yards of this ribbon will be manufactured at the rate of 15,000 yards a week.

Will Demonstrate Pork Curing.

The national swine show for 1919 will be held at Des Moines, Iowa, September 29 to October 4. This annual event is the most important connected with the swine industry. At the 1918 show held at Cedar Rapids, Iowa, the United States Department of Agriculture made an exhibit of smoked meats. It is the intention of the department this year to make a much larger exhibit than it did in 1918. In addition to the showing of smoked meats, the formulas used in curing meats will be demonstrated. Home curing of pork is being studied by many farmers who have been in the habit of purchasing their meats from the local dealer.

organization at this time."

"Will the Rev. Mr. Jones and the Rev. Mr. Shupp lead the democracy?" was one of the questions asked by Hawes in his article. "Are we to return to the days of witch craft burning in New England?"

Shupp says Hawes has given himself and one or two other leaders undue credit. "The credit belongs," Shupp says, "to thousands of the very best citizens of the state who had the courage to vote for men they believed could be depended upon along moral lines."

Shupp denies Hawes' statement that prohibition has been forced upon the country "during a terrible war." Shupp says the Anti-Saloon League began its work more than twenty-five years ago, and since then has been "turning the lights on some of the dark lantern methods of the old-time politicians."

"Many otherwise good men in those olden days felt it necessary to bow down to the brewery lash if they hoped to win in a state-wide political fight," Shupp concludes. "These men, who were really at heart better than their political environment, were glad when the opportunity came to desert the beer wagon for the water wagon."

KANSAS CITY MARKETS.

Kansas City Stock Yards, July 23.—Another wild scramble for hogs yesterday sent prices up sharply to a new high record position. The strengt in the market remained up to the close The top price was $22.65 and bulk of sales $22@22.50. Good to choice fed cattle and best heavy grassers were 25 cents higher, other steers steady and butcher cattle lower. Sheep were quoted strong, with trade active.

There was a material increase in cattle receipts. A sharp reduction in hogs, and no material change in sheep. Receipts yesterday were 18,000 cattle, 8,000 hogs, and 5,000 sheep, compared with 16,000 cattle, 13,000 hogs and 5,000 sheep a week ago, and 23,600 cattle, 9,500 hogs and 4,800 sheep a year ago.

Beef Cattle.—Good hard fat steers are advancing in price. Yesterday in a run of 18,000 cattle, several loads sold at $16.50@17.25, and heavy grassers, wintered and some caked, sold at $13.50@14.50, or higher than they would have brought at any time this season. Twelve carloads of steers from Texas brought $14.25. Straight grass fat steers were about steady, and butcher cattle were dull, and lower. The bulk of the offerings were straight from pastures and sold at $10.50@13.25. Cows brought $6.50@10.50, a few heavy thick fat sold up to $12.25. Heifers are quoted at $8@15.25. Veal calves were about steady at last week's decline.

Stockers and Feeders.—Increased receipts of stockers and feeders gave the trade large opportunities to expand at steady prices Demand for the best was fairly active and for plain grades quiet. Feeders are quoted at $9.50 to $13.50, stockers $8 to $12.25, and stock cows and heifers at $6.50 to $9.50. Stock calves were in fairly liberal supply at $8 to $13.50.

Hogs—A wild scramble for the meagre supply of hogs sent the prices into a new high record position. The top price was $22.65 and of the offerings sold at $22 to $22.55. These are the highest prices ever known. The general action of the hog market indicates that demand for pork and pork products is much larger than the supply of hogs. This is the period of the year when small supplies are expected and no material increase is anticipated in the movement before the latter part of October.

Sheep and Lambs.—Market for sheep and lambs today was active at firm prices. The bulk of the offerings were native grades. Lambs are quoted at $15 to $17.25. Wethers at $8.50 to $11.50, ewes $6.50 to $9.50. Some breeding ewes sold up to $17. They were in the yearling class. Feeding lambs are quoted at $10 to $15.50.

Horses and Mules—Receipts remain light. There is an excellent demand for rugged work horses 1200 pounds up, also good draft horses 1800 pounds up. There is some demand for Southerners, as well as for mules, both cotton feeders and sugar type. A local firm has an order for 500 cotton feeders, to be filled after August 1. CHAS. M. PIPKIN,
Market Correspondent.

HER DAUGHTER WAS SAVED FROM OPERATION

Mrs. Wells of Petersburg Tells How.

Petersburg, Va.—"For two years my daughter suffered from a weakness and pains in her right side; at times she was so bad she could not do any work. For two years she was attended by the best physicians here, and both agreed that she would have to be operated on. I suggested Lydia E. Pinkham's Vegetable Compound, and at first she refused to take it, but finally consented. From the very beginning it helped her, and now she is entirely well, and telling everybody how much good it has done her."—Mrs. W. D. WELLS, 226 North Adams Street, Petersburg, Va.

If every girl who suffers as Miss Wells did, or from irregularities, painful periods, backache, sideache, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

"SOCIABILITY" RUN PROVING A SUCCESS

MARYVILLE BOOSTERS MEETI' FRIENDS IN SURROUNDING TOWNS

87 PEOPLE ON THE TRIP

Tourists Take Dinner at Burlington Junction This Noon: Visit East Half of County Tomorrow.

Twenty-five automobiles, carrying 87 citizens of Maryville and vicinity left the court house square at 9 o'clock this morning for the first day lap of the big sociability tour which is being put on today and tomorrow under the auspices of the Maryville Chamber of Commerce.

Long before the time of departure, the cars began to congregate about the square to receive their number and the "early comers" drew the pick of position at the front of the procession. The "Nodaway County Water Wagon" headed the line and the big tank carrying the quantity of lemonade which furnished one of the features of the tour for the thirsty persons along the route, was driven by Charles Hellmers. Edward Weisberger representative of the Kansas City Post, was one of the passengers in the pro[illegible]r.

The first stop made by the [illegible] was at Wilcox. From that place the procession moved to Clearmont, and thence to Elmo and Burlington Junction. At the latter place the visiting "boosters" took dinner. This afternoon the procession was scheduled to make Quitman, the Boy Scout Camp near Skidmore, Skidmore, Maitland, Graham, and then back to Maryville where the preparations will be made for the visit to the eastern half of the county tomorrow.

At the stops made today the Maryville band gave selections while from the big tank cupful after cupful of delicious lemonade was drawn and passed to those who wished it. The plan of having four minute talks made at each stop was abandoned, and the Maryville people devoted their entire time to personal talk with the people and a general old fashioned visit. The idea of the trip is to eliminate all undue formality and form, and boosters greeted the townspeople with the spirit of good fellowship and friendliness which carried more weight than any number of long winded addresses.

The tour this morning was free from many of the disagreeable features which often accompany such a trip. Only one puncture was received on the morning run, and this was fixed within a few minutes by the "efficiency car" crew. All the towns were reached on schedule time and with the weather just cool enough to make the trip enjoyable, the affair is being voted a great success.

Although the crowds which greeted the visitors at the various towns this morning were comparatively small, due to the busy season of the farmers, they made up for their lack of number in enthusiasm, and the tourists were given a royal reception at each stop.

One of the features of the tour was the presence of Clun Price with the Belgian police dog which he purchased in Paris. The animal seemed to enjoy the trip and was probably second only to the "water wagon" in interest.

Tomorrow the "sociability run" will include Pickering, Hopkins, Parnell, Ravenwood, Clyde, Conception Junction Guilford, Barnard and Arkoe. It is planned to take dinner at Conception.

Camp Arnett, July 23.—With everything settled down to the regular schedule, and with [illegible]w completely adjusted to their new canvas homes, things are going along in true Sunday Scout fashion at the [illegible]re. [illegible] Piano [illegible]tenders. [illegible], Vocal [illegible]est is [illegible] Growacy of Con[illegible]nic [illegible] Swork. The [illegible] and Miss Maye [illegible] here and [illegible]d today when the Maitland co[illegible]nt arrives. The various patrols will compete in a final drill contest next Sunday afternoon beginning promptly at 2 o'clock, and a classy exhibition is promised. Commandant Peery announces that visitors will be welcome to the camp Sunday and that the contests will be carried on strictly according to the time schedule. The patrol drill begins at 2 o'clock sharp, fire building at 3 o'clock swimming races at 4 o'clock.

The fire building is creating a great deal of interest among the scouts, and about twenty boys are preparing their material and practicing under the direction of Assistant Scoutmaster Boatman. Primitive ways of making fire without the use of matches form one of the most interesting phases of this work.

Scoutmaster Green delivered an interesting "First Aid" lecture yesterday morning before an assembly of the entire camp.

RACE WAR DYING OUT IN WASHINGTON TODAY

Street Battles Show Decrease Last Night; One Killed and One Injured by Negro Who Escapes.

Washington, July 23—That the flame of race hatred in the national capitol has about flickered out, was the belief today by both the local and federal authorities. There has been only desultory rioting last night, in which one man has been killed and one seriously injured. Both were shot by the same negro, who is still at large.

"TRIPLE ALLIANCE" TO PUT STRIKE QUESTION TO WORKERS

TICKET SALE GOOD FOR CHAUTAUQUA

CHURCH COMMITTEES TAKE UP SELLING CAMPAIGN

THORO CANVAS OF CITY

Committees Getting a "Line-up" of Sale Prospects for Next Year.

The work of selling the tickets for the coming chautauqua is progressing rapidly, according to the committee in charge, and favorable indications are given for a record attendance at the entertainment this year.

In addition to the sale of the tickets in the various business houses of the city, a committee from each of the churches is covering the city in the interest of the sale. Committees from the Presbyterian church composed of Fred French, Dick Hotchkin, Prof. H. P. Swinehart, and Fred Kutrz, and from the South Methodist church, composed of Henry Thorpe, I. B. Williams and R. C. Seals, are making a house to house canvass of the Fourth ward in the interest of the sale. In the First ward the Christian church committee, R. Frank Wallace, Ed Hamlin and Henry Westfall, are conducting a similar campaign. In the second ward the work is being carried on by Ed Brewer, G. B. Holmes and J. B. Lowery, a committee from the Baptist church, and in the Third ward the ticket selling campaign is being staged by the First Methodist church committee, composed of L. B. Tracy, Ed Howland and Henry Wright.

In addition to selling the tickets, the members of the various church committees are at the same time securing the names of all persons who will promise to buy a ticket for a chautauqua next year. The sponsors of the entertainment in this city desire to know the general desire of the citizens for a chautauqua and are taking this means of getting the popular opinion before the contract is signed up.

MISUNDERSTANDING OF PROVISIONS OF INCOME TAX

Many County Collectors Collecting Income Taxes on Old Basis of One-Half of One Per Cent.

Jefferson City, July 23.—Inquiries to the attorney general from several sections of the state, disclose that there is a general misunderstanding of the provisions of the income tax law passed by the general assembly of 1917.

Many county collectors are collecting the income taxes for this year on the old basis of one-half of 1 per cent, and are deducting property taxes paid to the state last year.

Attorney General McAllister says that income taxes for this year will not be due until October 1. The law provides that the assessor shall complete the assessment of income—that is, ascertain the amount of the income subject to tax—on or before the first of March and shall certify the results to the county clerk, who shall compute the amount on the tax books, "and it shall be collected and paid as personal property taxes are now collected and paid."

Income taxes assessed this year on income for the calendar year 1918 are to be figured on the basis of the new rate, 1½ per cent, and there will be no deduction for property taxes paid to the state. Income taxes are not payable until personal property taxes are payable.

DISASTROUS FIRE PREVENTED BY QUICK WORK OF DEP'T

Blaze at the Mrs. Quinland Residence on W. Eleventh Street Extinguished After $300 Damage.

What might have proven a disastrous fire, coming at the time of night it did, was quickly extinguished last night at the residence of Mrs. Quinland, 209 W. Eleventh street, by the fire department.

The fire department received the call at 11:30 o'clock and, after a record run, were throwing water on the blaze at 11:40 o'clock. The fire started in a woodhouse, located near the house. When the blaze was first noticed the woodshed was in flames, lighting up the sky for several blocks around. Before aid was summoned the roof of the house and a shed across the alley had caught fire. Ten minutes later the fireman were at the scene of the trouble. The flames on the roof of the house were put out and the blaze in the two sheds was under control. The damage, amounting to $300, was not covered by insurance.

MISSOURI "DRYS" WILL NOT DISBAND

REV. W. C. SHUPP, ANTI-SALOON LEADER, SAYS NO INTENTION TO QUIT

A FACTOR IN POLITICS

Decline to Follow Suggestion of Harry B. Hawes to Disband; To Prosecute Lawlessness.

St. Louis, July 23.—The Missouri Anti-Saloon League will not adopt the advice of Harry B. Hawes, former Missouri Democratic leader, and disband, according to a statement issued by the Rev. W. C. Shupp, secretary of the league. The statement was in reply to an article by Hawes published in Sunday papers here in which Hawes says Shupp and other leaders in Missouri anti-saloon movement had dictated the nomination of governors, members of the state legislature and congressmen from Missouri.

"Has the Anti-Saloon League finished its work of closing the saloons, and is it, therefore going to quit" was Hawes' query in his article which was addressed to the Missouri Democracy.

Shupp made the following reply:

"As to the statment of Mr. Hawes that the anti-saloon league should now disband, since the fight is over against liquor, we have no intention, at least at this time, of following his advice.

"In the first place, if the fight is really over it ought to make very little difference to either Mr. Hawes or any other brewery attorney whether we attack chewing gum or face powder or patent corn cures. Circumstances in Congress and in political circles in Missouri, together with the open defiance of the prohibitory law by the liquor dealers of St. Louis and other cities of Missouri, indicate the fight is not over.

"We are obtaining evidence against lawless St. Louis and Kansas City liquor dealers and propose that they shall answer to the Department of Justice. We also expect to use our entire machinery in the choice of the cleanest, strongest men for political office in the coming election.

"We are perfectly willing to acknowledge the correctness of Mr. Hawes' statement when he charges us with having obtained the decisive defeat of home rule in the matter of the police force of St. Louis. If the police have not aided in the matter of honest and clean elections in St. Louis when their positions did not depend on the local vote of the corrupt wards of this city it would have been infinitely worse if the appointments depended entirely upon St. Louis liquor politics.

"In Hawes' summary of the things necessary for the success of the party, the big thing seems to be to get rid of the anti-saloon league. We are quite certain that Hawes could get quite a group of old-time politicians in the other political party to join him in that demand. On the other hand, the great majority of politicians not only believe, but openly say they are glad the liquor slavery under which they were compelled to operate for years is forever broken.

"So I am frank to say that we find it entirely impossible to acceed to the wishes of Mr. Hawes to disband our

WHEAT MAKES 36.6 AND OATS 45.25

HAVE HIGH YIELD ON PLOTS AT COLLEGE EXPERIMENT FIELDS

SHOW BEST TREATMENTS

Plot Treated With Legume Gives Best Yield for Wheat and Rock Phosphate Gives Best Oats Yield.

According to Prof. F. L. Duley, instructor in the Department of Soils at the Agriculture School, University of Missouri, the highest yielding plot of wheat at the agricultural experiment field ran 36.6 bushels to the acre. In all there were ten plots of wheat each of which had received a special soil treatment. The plot which made the 36.6 bushels to the acre had been treated with legume. The lowest yielding wheat plot which figured 26 bushels an acre, whatever. This is unusual.

Among the ten plots of oats, the highest yielding plot figured 45.25 bushels to the acre. This plot had been treated by rock phosphate. The smallest yield was made by a plot which had received no treatment, the yield for this plot being 31 bushels to the acre. The plot which ran second in yield, making 42 bushels to the acre, had been treated by bone meal and potash.

The results from the twenty plots of specially planted and treated plots of wheat and oats are, on the whole, very interesting and enlightening. As stated yesterday the experiment station here has the best prospects of any experiment station in the state this year and the results which are tabulated at the local experiment station will be of prime importance to the agricultural experts of the School of Agriculture at the state university

The tabulated results for each plot of both wheat and oats, indicating the treatment which each plot received and the yield of each plot follows: Wheat—Plot No. 21, treated with legume, 36.6 bushels Plot No. 22, treated with bone meal, 34.2 bushels; Plot 23, no treatment, 36 bushels; Plot No. 24, treated with bone meal and potash, 35.2 bushels; Plot No. 25, treated with bone meal, potash and lime, 34.4 bushels; Plot No. 26, treated with rock phosphate, 35.8 bushels; Plot No. 27, no treatment, 35.6 bushels; Plot No. 28, treated with rock phosphate, 34 bushels; Plot No. 29, treated with manure, 26 bushels, and Plot No. 30, treated with manure and rock phosphate, 29 bushels.

Oats.—Plot No. 11, treated with legume, 38.7 bushels; Plot No. 12, treated with bone meal, 37.25 bushels; Plot No. 13, no treatment, 38.2 bushels; Plot No. 14, treated with bone meal and potash, 42 bushels; Plot No. 15, treated with bone meal, potash, and lime, 34 bushels; Plot No. 16, treated with rock phosphate, 45.25 bushels; Plot No. 17, no treatment, 31 bushels; Plot No. 18, treated with rock prosphate, 36.5 bushels; Plot No. 19, treated with manure, 39.75 bushels, and Plot No. 20, treated with manure and rock phosphate, 41 bushels.

LEAVENWORTH PRISONERS STRIKE DEMAND FREEDOM

Situation Tied up Until Orders Are Received From Chicago; Worst Strike in Prison's History.

Leavenworth, July 23.—Conditions at the United States Disciplinary barracks, where yesterday the prisoners went out on a strike for general amnesty that the prison gates be opened and they be turned out, was practically unchanged today, and the Commandant said that things were practically at a stand-still. Nothing can be done until word is received from the Commander of the Central Department at Chicago. This is the worst strike in the prison's history. The prisoners declare that they will not obey the rules and return to work until they are promised that they will be set free.

CONGRESS IGNORES MEXICAN TROUBLE

REFUSES TO TAKE ACTION TO END OUTRAGES TO AMERICANS

SENTIMENT FOR ACTION

Many Members Demand Use of Armed Forces of U. S. to Bring About a "Clean-up.

Washington, July 23.—Congress will take no early action in regard to the Mexican situation. While the sentiment seemed to be crystalizing for decisive measures to put an end to the outrages against the Americans in Mexico, and many members are demanding the use of armed forces of the United States in a general clean-up, leaders in Congress it was learned today, have decided to follow for a while longer the lead of the State department.

EXCITING RUNAWAY THRU STREETS AT NOON TODAY

Team Belonging to Oswald Gray Take Fright at Auto and Make Wild Dash.

A rather sensational runaway occurred at the noon hour today when a team hitched to a road wagon, left standing in front of Gray's sale pavilion, became frightened at Jake Melvin's car and the horses started on a wild run. The team turned the corner of Second and Buchanan streets, swerved across the sidewalk, knocked down a cement hitching post, and ran down the sidewalk. On reaching a place in front of St. Patrick's church one horse slipped and fell, throwing the other horse down and stopping the wild race.

F. L. Tracy and Dr. Jesse Miller were going down the sidewalk in front of the South Methodist Flats and barely got out of the way of the madly running team before they were seriously injured.

The team belonged to Oswald Gray and had been driven to town by his son. The wagon was badly damaged and the harness on the horses was torn to pieces. Henry Thorpe caught the team after they had fallen and held them until the Gray boy came up to take them.

MRS. LOUIS GRAM DIES OF TETANUS AT HOME

Survived by Husband and Two Children—Funeral Friday Morning From St. Mary's Church

Mrs. Louis Gram, who has been ill for two weeks of complications resulting from stepping on a nail, died about 4 o'clock this morning at the Gram home, 1211 East 1st street. Mrs. Gram who was 62 years old, was born in Germany and when a young girl came to this country. She and Mr. Gram were married in 1889. Mr. Gram and two children survive, a daughter, Miss Mary Gram, and a son, Corporal Louis Gram. The latter arrived home yesterday morning on a ten days' furlough given him on account of his mother's illness.

Funeral services will be held at 9 o'clock Friday morning at St. Mary's church, conducted by the Rev. Father Odilo. Burial will be in St. Mary's cemetery.

MEMBER MISSOURI PRESS ASSOCIATION

TO BEGIN MEMORIAL CAMPAIGN

Alumni of University of Missouri Hope To Erect Tower on Campus.

Columbia, July 23.—A campaign to raise funds for the building of a tower on the campus of the University of Missouri in memory of those M. U. men who served in the war and who gave their lives in the struggle will be started soon by the Alumni Association of the University. The tower as now planned will cost approximately $100,000 and will be erected on the University's White Campus.

Practically every university and college in the country is conducting a similar campaign. At several of the large universities the money already has been raised for a memorial on the campus to the alumni and students of the university who served in the world war.

Chairmen will be appointed in each county of the State by the Alumni Association of the University of Missouri upon whom will rest the responsibility of seeing that every former student of the University in that county is given an opportunity to contribute to the student memorial fund.

In the larger cities of Missouri and other states, special chairmen will be appointed to conduct the campaign in the city. Those M. U. students in foreign lands also will be invited to contribute to the fund for the erection of the Memorial Tower. It is expected the campaign will extend through the fall months.

Prominent members of the Missouri Alumni Association in St. Louis and Kansas City already have been consulted in regard to the proposed student memorial. From the interest shown in these two cities and in other parts of the State and the United States, it is believed all Missouri alumni and former students will want to have a part in erecting a tower to the University's dead.

GOVERNMENT FOSTERS OVERSEAS COMMERCE

New Foreign Field Agents will Canvas Trade Opportunities for U. S.

Washington, July 23.—An estimate of foreign trade for the year ended June 30, 1919, puts the excess of this country's exports over its imports at $3,704,000,000, nearly $100,000,000 above the figures for the same period in 1918. Since the armistice interest in foreign trades has greatly increased, according to officials of the Bureau of Foreign and Domestic Commerce and opportunities for our goods abroad have doubled.

To keep pace with this development and to show the way for American exporters, the Commerce Department, through its Foreign Commerce Bureau, will send out this year twelve additional field trade commissioners. This will make a total of 49 American field agents in foreign market territories.

As an index of the increased interest in export opportunities Congress made an appropriation of $100,000,000 this year for the bureau's work. While this sum was almost double the appropriation in any past year it was but two-thirds of the amount asked of Congress.

There are at present 29,000 exporters receiving the daily reports and special bulletins of the Commerce Department, representing nearly as many firms actively interested in the more than $6,000,000,000 worth of goods now being annually exported. The value of exports jumped to this figure in 1919, and it is estimated the total will be several hundred million dollars large in 1920. Prior to the war the value of our exports averaged only about $2,500,000,000.

To keep up with the opportunities in markets overseas the Department has been co-operating in its field work with the Foreign Trade Adviser's office and the Consular Service of the State Department. In addition to the various consular agents and foreign trade agents the Bureau of Foreign and Domestic Commerce has been developing the trade commissioner agencies throughout the world during the last couple of years. There are now twelve commercial attaches at the leading American ministries and embassies. There are twenty-five trade commissioners now active in foreign fields, keeping American exporters informed of their opportunities, and in a few months twelve resident commissioners will be sent to the various fields where there is now no embassy representation.

Manufacture for foreign trade export will absorb much labor during our reconstruction period. The export industry has been called the labor balance wheel because it takes up the slack in the labor market. Secretary of Commerce Redfield is establishing co-operation between the Shipping Board and the Commerce Department so that the reports of foreign trade and markets by super-cargoes on our merchant vessels will be added to the information that will enable our exporters operate their factories at full speed and keep America actively among the world's leading exporters.

MAY WEAR UNIFORMS ON SPECIAL CIVIC OCCASIONS

Washington, D. C.—The War Department has issued a circular advising honorably discharged soldiers that they are entitled to wear their uniforms on special occasions, such as parades, patriotic celebrations, etc. The circular was issued because of numerous requests from discharged soldiers for such information. An act passed by the last Congress allowed honorably discharged men in the military service, including the navy and Marine Corps, to retain one complete uniform and authorized it to be worn after the men had returned to private life.

GIRLS' CLOTHES SHOCKING, SAYS THIS "MISS" OF 80

North Brookfield, Mass., July 23.—Modern young women's gowns are the height of indecency and are worn only for the purpose of displaying shapely limbs, according to Miss Hazel Mason.

"Morality never enters the heads of these light-headed girls," said Miss Mason, who admits to being past eighty and declares that the older she grows the more shocking the sights she sees. She also took issue with the statement that country people are morally more pure than those of the cities.

If hot weather saps your energy and you can't work well, it is a sign that your system is full of bilious impurities. You will be sick if you do not do something. Take Prickly Ash Bitters, the remedy for men; it cleanses the blood, liver and bowels, restores strength, vim and cheerful spirits. Price $1.25 per bottle.—Maryville Drug Co., Special Agents.—Adv.

MANY REASONS WHY NATION DESIRES HOUSEHOLD THRIFT

Household thrift helped win the war. It will fortify the peace, making America powerful, its people prosperous, and its homes happy.

Thrift is steady earning, wise spending, sane saving, careful investing, and the avoidance of all waste.

What the members of one family produce in outside industry and in the home adds to the national product or "wealth heap" of food, clothing, and all desirable goods; this national wealth heap is divided among us all, and out of it every family, each one of us, gets his living.

What one home wastes is taken away from the Nation's wealth, and makes all homes that much poorer.

The war taught us to practice thrift together in food, in clothing, and in all goods, in order to serve America and save the world. Our country asks continued thrift in the home as a guarantee that we shall remain a prosperous, progressive, independent and dependable Nation.

By thrift every household can take its part gladly in every government loan; by investing in government securities it can safeguard its future, and increase its income so as to fulfill the American ideal of personal independence and constant progress toward better living.

Thrift is a permanent service which the household can render to the Nation.

If your appetite is poor and your stomach and bowels are out of order the remedy you need is Prickly Ash Bitters. It cleanses the system of bilious impuirties, sharpness the appetite and makes a man feel fine. Price $1.25 per bottle.—Maryville Drug Co., Special Agents.—Adv.

Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

The third part of the program consisted of Hawaiian music by Esther Dietz with a Hawaiian guitar accompaniment by Edna Dietz, the selections being "Kentuck Dreams" and "Mammy's Lullaby". The concluding number of the program was made up of selections by the quartet, entitled "Selections from William Tell" and "The Three Nymphs."

HOG PRICE RECORDS BROKEN EVERY DAY

Top Value of $23 Reached On Porkers Brought In Trucks.

New record prices are being established on hogs almost daily at the stockyards. On yesterday's market the top rose to $23 a hundred, which beat Monday's record of $22.65 by a margin of 35 cents. Much speculation as to just how high prices will soar before there is a permanent decline in the market is being indulged in by traders at the yards and country shippers. Some wagers have been laid that the top will climb to $25 before the end of September. Many stockmen, however, venture the prediction that the crest of the boom in hog values has about been reached. No one connected with the trade, though, believes there is any chance fo rany sharp decline in prices until the last spring pig crop matures and supplies at market centers become more plentiful.

The hogs that sold at $23 were marketed by D. E. Saeger, of Wathena, Kas., who brought the porkers to the yards in a motor truck.—St. Joseph Gazette.

LAND OPENED TO ENTRY.

Washington, July 23.—Twenty-four thousand acres of land in the Tahoe National Forest in California and Nevada, and in La Sal National Forest, Utah, have been restored to the public domain and made subject to entry under the homestead laws on and after August 21, 1919, and to settlement and other disposition on and after August 28, 1919. Sixteen thousand acres of this land in California and 1,000 acres in Nevada are said to have limited value for grazing. The land in Utah—about 7,000 acres—is in part suitable for dry farming and partly useful for grazing.

DEAF MUTE, STRUCK BY TRAIN, REGAINS VOICE

New York, July 23.—Employees of the Pennsylvania Coal Company and of the Pennsylvania Railroad Company who were in proximity to the place where Mary Alexandavics, of Port Griffith, was struck by a train recently near the Hoyt shaft at Port Blanchard, say that though the young woman was a deaf mute she screamed loud enough to be heard after the coal cars had passed over her body.

Men on top of a culm pile nearby, who could not see the train as it passed below say that they heard a peculiar noise as from a human being and hurried to investigate. At the foot of the dump and on the off side of the cars they found the young woman. They say that she reached her right arm over her left shoulder and found that her arm had been amputated. She was still conscious and screamed pitifully again. The men could not understand her, but believe that the shock of the accident gave her power to make herself heard. They tell of her gamely struggling to get up, though her arm and leg were cut off and her head badly bruised and cut. Her body was partly mangled also and she presented a terrible sight as the workmen came upon her torn body. She had been walking along the tracks and did not see the train. A brakeman threw a club at her as the cars rushed toward her, but her attention could not be attracted in time. The first car hit her and then the horrible shriek of pain was heard by men high up over the culm pile. The young woman died at the Pittston hospital. Deaf and mute, with a leg and arm off and her body badly cut, she wanted to live, but death later came.

SHE DIDN'T ENJOY A MEAL IN SIX YEARS

Miss Vaughn Gains Fourteen Pounds After Tanlac Relieved Trouble.

"To show you what I think Tanlac has been worth to me, I wouldn't be back in the fix I was before taking it for all the money in Galesburg," said Miss Mary Vaughn, residing at 93 Summer street, Galesburg, Ill., in a conversation with a Tanlac representative, recently.

"At the time I got Tanlac," she continued, "my stomach had been in such a bad condition for six years that I was compelled to live on the very lightest of foods and even when I would just suffer agony, there was a constant burning sensation and a heavy feeling like lead in the pit of my stomach. I suffered so much after eating that I actually dreaded for meal time to come, and I never enjoyed a meal in all those six years. I was also troubled a great deal with sick headaches. My head felt like it would burst at times and I actually thought I would go blind, the pain was so great. Nobody will ever know just how badly I did suffer, for I simply can't describe it. I was the most nervous person, it seems to me, in the world. Why, I couldn't dress myself and get ready to go any place without getting so weak and nervous that I could hardly stand it. Really life was very little pleasure to me. I felt so badly all the time.

"I had tried so many medicines without relief that I had about concluded that there was no help for me, but at last I have gotten rid of it all by Taking Tanlac. Why, Tanlac is no more like any other medicine I have taken than day is like night. I commenced to eat hearty and sleep better in just a few days after I began taking it. My appetite is so good now that I just cannot eat enough to satisfy me and I never have any more trouble with my stomach no matter what I eat. My headaches have broken up entirely, my nerves are calm and steady, and if anyone could feel like a new person I do. My friends all tell me they have never seen me looking so well. Anyway, I have gained fourteen pounds in weight by using Tanlac and never know what is is to have an ache or a pain, so I have the best of reasons for praising Tanlac and am glad to make this statement to be used in letting others know about it."

Tanlac is sold in Maryville by Koch Pharmacy, in Conception Junction by A. M. Colly, in Pickering by H. M. Lincoln, in Burlington Junction by Carter Pharmacy, in Barnard by Bear Drug Co., in Elmo by King Drug Co., in Clearmont by Dr. W. H. Wiley, in Ravenwood by C. A. Shunk, in Arkoe by Rufus R. Smith, and in Hopkins by Hopkins Drug Co."

KAISER "BILL" MUST MUST REMAIN IN HOLLAND

Dutch Foreign Office Refuses to Grant Permission for Former Emperor to Change Residence.

The Hague, July 23.—The Dutch Foreign office has refused to grant permission to the ex-Kaiser to move to Amerongen, although he himself desired to move, Count Bentinck desired to get rid of him, and the former German Empress' friends have found a suitable residence elsewhere. The ex-Kaiser is legally free to leave Holland, it is said here, but a significant statement obtained from the foreign office today, declined to say what would happen if he tried to leave. All the ex-Kaiser's mail is censored.

HONOR BUTTONS READY FOR ALL IN WORLD WAR

Washington, July 23.—The victory button commemorating service in the world war is now being distributed by the War Department to every man enlisted in the American force since April 6, 1917. Two hundred thousand silver buttons have been manufactured for distribution to men wounded in the war. Approximately 500,000 bronze buttons for men who served abroad but who were not wounded, have already been manufactured. Manufacture of the bronze buttons will be continued at the rate of 20,000 a week until all the demands are supplied.

These buttons can be obtained at the various army posts, recruiting stations and zone supply offices upon presentation of honorable discharge.

The War Department is now negotiating contracts for the victory ribbon and stars and bars to be issued to those who served in world-war engagements and those who received citations for valor. Approximately 507,000 yards of this ribbon will be manufactured at the rate of 15,000 yards a week.

Visit in King City.

Mr. and Mrs. W. H. Dinsmore, Miss Bessie Dinsmore, Frank Dinsmore and John Gregory drove to King City Monday where they visited the Uriah and Isiah Simmons families, who are relatives of Mrs. Dinsmore. Mr. Gregory, who recently returned from France, left Tuesday for Plattsburg for an indefinite visit with his parents, Mr. and Mrs. George Gregory.

Will Demonstrate Pork Curing.

The national swine show for 1919 will be held at Des Moines, Iowa, September 29 to October 4. This annual event is the most important connected with the swine industry. At the 1918 show held at Cedar Rapids, Iowa, the United States Department of Agriculture made an exhibit of smoked meats. It is the intention of the department this year to make a much larger exhibit than it did in 1918. In addition to the showing of smoked meats, the formulas used in curing meats will be demonstrated. Home curing of pork is being studied by many farmers who have been in the habit of purchasing their meats from the local dealer.

Return From Norfolk.

Miss Mildred Bellows and Miss Louise Rowlett returned last night from Norfolk, Neb., where they have been guests for a week of Miss Helen Hudson. They were accompanied to Maryville by Arthur Hudson, who will visit his grandparents, Mrs. Helen Hopkins and Mr. and Mrs. W. H. Hudson.

organization at this time."

"Will the Rev. Mr. Jones and the Rev. Mr. Shupp lead the democracy?" was one of the questions asked by Hawes in his article. "Are we to return to the days of witch craft burning in New England?"

Shupp says Hawes has given himself and one or two other leaders undue credit. "The credit belongs," Shupp says, "to thousands of the very best citizens of the state who had the courage to vote for men they believed could be depended upon along moral lines."

Shupp denies Hawes' statement that prohibition has been forced upon the country "during a terrible war." Shupp says the Anti-Saloon League began its work more than twenty-five years ago, and since then has been "turning the lights on some of the dark lantern methods of the old-time politicians."

"Many otherwise good men in those olden days felt it necessary to bow down to the brewery lash if they hoped to win in a state-wide political fight," Shupp concludes. "These men, who were really at heart better than their political environment, were glad when the opportunity came to desert the beer wagon for the water wagon."

KANSAS CITY MARKETS.

Kansas City Stock Yards, July 23.—Another wild scramble for hogs yesterday sent prices up sharply to a new high record position. The strengt in the market remained up to the close The top price was $22.65 and bulk of sales $22@22.50. Good to choice fed cattle and best heavy grassers were 25 cents higher, other steers steady and butcher cattle lower. Sheep were quoted strong, with trade active.

There was a material increase in cattle receipts. A sharp reduction in hogs, and no material change in sheep. Receipts yesterday were 18,000 cattle, 8,000 hogs and 5,000 sheep, compared with 16,000 cattle, 13,000 hogs and 5,000 sheep a week ago, and 23,600 cattle, 9,500 hogs and 4,800 sheep a year ago.

Beef Cattle.—Good hard fat steers are advancing in price. Yesterday in a run of 18,000 cattle, several loads sold at $16.50@17.25, and heavy grassers, wintered and some caked, sold at $13.50@14.50, or higher than they would have brought at any time this season. Twelve carloads of steers from Texas brought $14.25. Straight grass fat steers were about steady, and butcher cattle were dull, and lower. The bulk of the offerings were straight from pastures and sold at $10.50@13.25. Cows brought $6.50@10.50, a few heavy thick fat sold up to $12.25. Heifers are quoted at $8@15.25. Veal calves were about steady at last week's decline.

Stockers and Feeders.—Increased receipts of stockers and feeders gave the trade large opportunities to expand at steady prices Demand for the best was fairly active and for plain grades quiet. Feeders are quoted at $9.50 to $13.50, stockers $8 to $12.25, and stock cows and heifers at $6.50 to $9.50. Stock calves were in fairly liberal supply at $8 to $13.50.

Hogs—A wild scramble for the meagre supply of hogs sent the prices into a new high record position. The top price was $22.65 and of the offerings sold at $22 to $22.55. These are the highest prices ever known. The general action of the hog market indicates that demand for pork and pork products is much larger than the supply of hogs. This is the period of the year when small supplies are expected and no material increase is anticipated in the movement before the latter part of October.

Sheep and Lambs.—Market for sheep and lambs today was active at firm prices. The bulk of the offerings were native grades. Lambs are quoted at $15 to $17.25. Wethers at $8.50 to $11.50, ewes $6.50 to $9.50. Some breeding ewes sold up to $17. They were in the yearling class. Feeding lambs are quoted at $10 to $15.50.

Horses and Mules—Receipts remain light. There is an excellent demand for rugged work horses 1200 pounds up, also good draft horses 1800 pounds up. There is some demand for Southerners, as well as for mules, both cotton feeders and sugar type. A local firm has an order for 500 cotton feeders, to be filled after August 1. CHAS. M. PIPKIN,
Market Correspondent.

HER DAUGHTER WAS SAVED FROM OPERATION

Mrs. Wells of Petersburg Tells How.

Petersburg, Va.—"For two years my daughter suffered from a weakness and pains in her right side; at times she was so bad she could not do any work. For two years she was attended by the best physicians here, and both agreed that she would have to be operated on. I suggested Lydia E. Pinkham's Vegetable Compound, and at first she refused to take it, but finally consented. From the very beginning it helped her, and now she is entirely well, and telling everybody how much good it has done her."—Mrs. W. D. WELLS, 226 North Adams Street, Petersburg, Va.

If every girl who suffers as Miss Wells did, or from irregularities, painful periods, backache, sideache, dragging down pains, inflammation or ulceration would only give this famous root and herb remedy a trial they would soon find relief from such suffering.

For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.
